

About Your Program Instructors

Joy Hesse M.S. CCC-SLP graduated from the University of Northern Iowa in 1989 with her Master's Degree in Speech-Language Pathology. She began her career in the acute care setting at Mercy Hospital Medical Center in Des Moines, and was instrumental in the development of the modified barium swallow program at the hospital. Ms. Hesse then worked at Iowa Methodist Medical Center in Des Moines in the outpatient rehabilitation department focusing on outpatient voice therapy and dysphagia therapy. In 1998 she joined a group of Otolaryngologists in West Des Moines where she established a thriving voice and swallowing clinic. Joy is passionate about teaching and is a regular lecturer to the Iowa Chapter of National Teachers of Singing, the Iowa Speech and Hearing Association and Pedagogy Classes at several universities. She has also lectured at the American Speech and Hearing Association of FEES and for Cross Country Education on Voice and Resonance Disorders.

Andrew (Andy) Christler, M.A. CCC-SLP has been working in the area of professional voice, for over fourteen years. He started his voice career as a disc jockey, working and performing, before earning his bachelor's from Central Michigan University. He earned his Master's in Communication Sciences and Disorders, from Wayne State University in Detroit, Michigan. Andrew speaks three languages, which are English, American Sign Language, and Spanish. He is a university professor instructing in Dysphagia and acute care practicum. He is a specialist in both Flexible Endoscopic Evaluation for Swallowing, and Videostroboscopy. Andrew has worked as the Director of Clinical Services, with his specialty in: voice, singing and stuttering at Med Speech, Inc. His career spans over twenty-two years, in both pediatric and adult settings.

Kathleen Fitzgerald M.S. CCC-SLP is the former President and Founder of the South East Center for Swallowing and Communication Disorders, PC. Kathleen graduated with her master's degree in speech-language pathology in 1993, from Northeastern University in Boston, Massachusetts. Since that time, she has been primarily focused on diagnostic's and treatment of swallowing and voice disorders, for pediatric and adult settings. Ms. Fitzgerald has conducted clinical training of multiple clinicians at national hospitals, for modified barium swallow (MBS), studies and developing MBS suites. She is a national and international clinical trainer, and specialist in the area of flexible endoscopic evaluation of swallowing, and videostroboscopy. Ms. Fitzgerald's experience includes numerous years, of extensive voice and videostroboscopy procedures, as an ENT consultant.

Who Should Attend?

Speech-Language Pathologists
and Otolaryngologist's

COURSE OBJECTIVES AND LEARNING OUTCOMES

This program is offered for 1.55 ASHA CEUs Intermediate Professional Level

APPROVED PROVIDER

S.E.C. Medical Speech Pathology Consulting & Training is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. See course information for number of ASHA CEUs, instructional level and content area. ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

DAY ONE

8:30

Registration and Continental Breakfast

9:00 - 10:00

History of Stroboscopy and the role it plays in evaluation of voice disorders. ASHA training guidelines for Laryngeal Videendoscopy/Stroboscopy (LVES). Review of normal anatomy and physiology of the oral, nasal and pharyngeal cavities.

10:00 - 12:00

How to take a thorough case history, self-rated questionnaires, and clinical measurements of the voice, using objective, acoustic and perceptual techniques with both high and low tech examples. Therapeutic probes and videostroboscopy protocol, will be discussed.

10:30 - 10:45 Break

10:45 - 12:30

Case studies walking through entire evaluation, procedure protocol, report writing, scoring and treatment planning.

12:30 - 1:30 Lunch

1:30 - 2:30

Testing protocols for both rigid and flexible videostroboscopy. Choosing appropriate topical anesthetic if needed, ensuring patient comfort and safety during the exam, and high level disinfection procedures.

2:30 - 3:30

Review of common voice disorders with numerous case studies.

3:30 - 3:45 Break

4:30 - 5:30

Review and operation of the videostroboscopy equipment, and understanding Videostroboscopy equipment, and creating reports.

DAY TWO

7:30

Registration and Continental Breakfast

8:00 - 11:00

Hands on practice performing rigid and flexible endoscopy. Participants will demonstrate emerging skills with both types of endoscopes.

10:30 - 10:45 Break

11:00 - 12:00

Using stroboscopy to guide clinical management. Applying stroboscopy and interpretation to clinical practice.

12:00 - 1:00 Lunch

1:00 - 5:00

Hands on practice performing rigid and flexible endoscopy, on course participants and volunteers.

3:30 - 3:45 Break

5:00 - 5:30

Participant question and answer session. Topics may include:

- Developing and marketing to ENT physicians and community to cultivate a thriving private practice.
- Billing ICD-10 codes and appropriate CPT/HCPC Coding for Medicare and private insurance companies.
- Specific voice therapy techniques for common voice disorders.
- Developing a "voice team" involving speech therapist, otolaryngologist and singing voice specialist.
